Aaditya Jadhav

Full Stack Developer | MERN Stack | React.js | Node.js

+91 9313124092 | jadhavaaditya518@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ months of hands-on production experience building MERN stack (MongoDB, Express.js, React.js, Node.js) web applications. Proficient in React.js, Redux Toolkit, REST API integration, JWT authentication, and Tailwind CSS. Delivered production features including bulk Excel import/export, PDF report generation, and admin dashboards. Built AI-powered projects using Gemini AI and Firebase. AWS Certified Cloud Practitioner. actively seeking Full Stack or Frontend Developer roles.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Design and Integration, JWT Authentication

Language : Python

Database: MongoDB, SQL

Tools & Platforms: Git, GitHub, Postman, Vercel, Firebase, Gemini AI, AWS

WORK EXPERIENCE

MAHIM ARCHITECTS - Frontend Developer Trainee : ValusoftPro *Sep 2025 – Feb 2026 | Surat, On site*

- Built responsive, production-ready user interfaces using React.js, Tailwind CSS, and Ant Design
- Integrated REST APIs and implemented application state management using Redux Toolkit
- Developed bulk Excel import/export functionality for large-scale data handling in admin dashboards
- Built PDF report generation and download features used across multiple business modules
- Processed and structured spreadsheet data for validation, storage, and display in admin dashboards
- Collaborated with backend teams on data validation pipelines, API contracts, and storage workflows
- Optimized component-level performance and user experience across deployed production systems

PROJECTS

AI Trip Planner - GitHub *React.js | Gemini AI | Firebase | Tailwind CSS*

- Built AI-powered travel planning web app using Gemini AI to generate personalized travel itineraries based on user preferences
- Integrated Firebase real-time database and Google OAuth authentication for secure, personalized user sessions
- Designed clean, mobile-first UI using Tailwind CSS with a focus on responsive design and fast load times

Shopping Cart – Full Stack E-Commerce Platform - GitHub *MongoDB | Express.js | React.js | Node.js*

- Developed full MERN stack e-commerce application with separate user and admin panels and role-based access control
- Implemented JWT authentication, payment gateway integration, and performance optimizations for production deployment
- Optimized application performance for smooth navigation and fast page loads across all devices

EDUCATION

Master of Computer Application – Data Science | MIT ADT University, Pune *8.32 CGPA | 2023–2025*

Bachelor of Computer Application | Bhagwan Mahavir University, Surat *7.20 CGPA | 2020–2023*

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services
- Python Data Structures – Coursera
- SQL for Data Science – Coursera
